

## TSE 808

**DO NOT SELL THIS FREWARE PRODUCT!**  
**IF THIS PRODUCT WAS SOLD TO YOU, YOU'VE BEEN RIPPED OFF!**

- This is a (PC) vst plugin modeled after a Tube Screamer.
- Modeled/Programmed in C++ by onQel (John A. Johansen)
- GUI / Artwork by FrankZappa.

### **The header:**

- There are four controls on the header. Input, Oversample, Stereo, Quality
- Input slider adjusts the input signal going into the plugin.
- 2X/4X is a selection between dual or quad oversampling.
- Stereo switch must be on to use two guitars at once.
- Quality slider sets the internal precision. From 5.0 millivolt to 5.0 microvolt

**ENJOY !**
